

EAR PUSH IN EX01021

The new E·A·R Push-In revolutionise hearing protection with more advantages than any other foam earplug. No roll down is required, a gentle push is all it takes for easy, consistent insertion and the flexible stem improves hygiene. The patented E·A·Rform foam tip is shaped and sized to mould comfortably to fit virtually every size ear canal.

- SNR = SNR 35 dB (two-hand insertion) and;
SNR 31 dB (one-hand insertion)
- EN 352-2:2020
