plum
Safety

- Bottles with a 4.9% sterile phosphate buffer solution that quickly neutralizes acids and alkali.
 - They can be used individually or as refills in eyewash stations and boxes
 - The 500 ml bottle comes with the ergonomic DUO eyecup, which makes it possible to rinse both eyes at the same time.
 - 4.9 % sterile phosphate buffer for neutralizing acid and alkali that come into contact with the eye
 - Easily manageable bottles
 - Ergonomic eyecups for effective flow over both eyes
 - DUO eyecup for simultaneous washing of both eyes
 - User-friendly design allows the bottles to be quickly opened with a single hand
-
- Quick neutralising effect - minimizes the impact of accidents with acids and alkali
 - Easy to handle - easily applied by the injured person or with assistance
 - Flexible solutions - bottles for mobile use and stations for wall mounting
 - Wide application - from industrial workplaces to laboratories and first aid kits
