

MSA Standard V-Fit Back/Chest D-Ring Bayonet Harness

Featuring a patent-pending RaceFLEX™ buckle, bulky chest straps are eliminated for a close and comfortable fit. The athletic cut of the V-FIT harness contours to the body, improving upper torso movement on the job, while soft shoulder padding helps to eliminate pressure points and chafing for all day comfort.

- Breathable spacer mesh foam shoulder padding that can be removed for cleaning, extending the life of the harness
- Patented leg strap design keeps leg straps in place as webbing lays horizontally across the thighs, creating a more natural fit
- Pull-down adjustment allows you to quickly and easily get the right fit that lasts throughout the work day
- New hex style stitch patterns make finding broken threads easy when inspecting the harness
- Nano-technology treated coated webbing that repels dirt, grease and moisture
- Bayonet buckle connection
- Back and chest D-Ring
- EN 361:2002 Personal protective equipment against falls from a height. Full body harnesses
