

PHC Safety Point Blades Dispenser

Product Code

SPD-17

Available in Sizes

ONE SIZE

Available in Colours

Black
SPD-17

The Blade Dispenser safely dispenses one SP-017 Safety Point Blade at a time from a durable plastic case by easily pulling the yellow tab. This convenient gravity fed dispenser helps control blade inventory and insures that employees have the proper tools where and when needed to remain productive. The dispenser contains 100 new blades and fits most PHC safety cutters including the S4, S4S, S5, S7, S8, EZ1, EZ2+, EZ4, EZ7, GSC3, RZ3 and EZ3. Plus, by pairing a PHC Blade Dispenser (SPD-017, QBD-324, or QBD-379) to the front of the PHC Blade Bank you create a blade change station that will increase the safety and efficiency of your staff. By using both items together your employees will be encouraged to properly dispose of loose blades and easily access new replacement blades near their work stations and throughout your facility, ultimately increasing overall productivity.

Features

- Contains 100 SP-017 Safety Point Blades
- Increases worker productivity by making blades available near workstation
- Reduces worker injury by safely dispensing one blade at a time
- .017" thickness
